EXPERIENCE

Hero's Journey

February 2025 – Present

Full-stack Developer

Almaty, Kazakhstan

- Rewrote the legacy admin panel from scratch using **Next.js** and **Tailwind CSS**, boosting performance and user experience by over **70%**.
- Developed and maintained a POS panel using **React** and **Electron**, delivering a smooth and efficient desktop experience for in-store operations.
- Built and shipped a cross-platform mobile application using **React Native**, extending platform capabilities to mobile users.
- Designed and maintained a scalable backend using **Node.js**, **GraphQL**, and **MongoDB**, supporting complex queries and real-time data needs across all client applications.

EasyRent

August 2024 – October 2025

Front-end Developer

Remote, Kazakhstan

- Developed a responsive and user-friendly car rental platform using **Next.js**, **Tailwind CSS**, **Jotai**, and **TanStack Query**.
- Optimized data fetching and state management to improve performance and ensure seamless user interactions.

Finance.kz

June 2024 – March 2025

Front-end Developer

Remote, Kazakhstan

- Designed and developed a custom admin panel from scratch, streamlining workflows and enhancing the user experience by making product creation, editing, and management up to **50%** more efficient.
- Mentored and guided all interns, providing comprehensive support in feature development and enhancing their mastery of front-end best practices.

Qtap

January 2024 – June 2024

Front-end Developer

Almaty, Kazakhstan

- Optimized state management by leveraging **Jotai** and **TanStack Query**, improving data handling efficiency across the application.
- Implemented a fully responsive design using **Next.js** and **Tailwind CSS**, enhancing accessibility and user experience across all devices.
- Covered **60%** of the web application with unit tests, ensuring code reliability and maintainability.
- Generated **100%** of all email templates using **React Email** for consistent and dynamic communication.

EDUCATION

Suleyman Demirel University

Almaty, Kazakhstan

Bachelor of Computer Science

August 2019 – June 2023

PROJECTS

QazSmart | *Node.js, Express.js, MongoDB, React, Tailwind*

- Developed a web application to facilitate travel activities within Kazakhstan, utilizing **React** for the frontend to create interactive and responsive user interfaces.
- Built a robust backend with **Node.js** and **Express.js** to handle **RESTful API** requests, ensuring efficient data flow and application performance.
- Integrated **MongoDB** for data storage and retrieval, enabling fast access to large volumes of data about travel destinations and activities.
