EXPERIENCE

Hero's Journey   February 2025 – Present
Full-stack Developer   *Almaty, Kazakhstan*
- Working as a full-stack developer, primarily focusing on building and maintaining the admin panel.
- Developing scalable and efficient solutions using **React**, **Vite**, **SCSS**, **Node.js**, **Express.js**, and **MongoDB**.
- Enhancing the admin panel's functionality, performance, and user experience with a focus on seamless data management.

EasyRent   August 2024 – October 2025
Front-end Developer   *Remote, Kazakhstan*
- Developed a responsive and user-friendly car rental platform using **Next.js**, **Tailwind CSS**, **Jotai**, and **TanStack Query**.
- Optimized data fetching and state management to improve performance and ensure seamless user interactions.

Finance.kz   June 2024 – March 2025
Front-end Developer   *Remote, Kazakhstan*
- Designed and developed a custom admin panel from scratch, streamlining workflows and enhancing the user experience by making product creation, editing, and management up to **50%** more efficient.
- Mentored and guided all interns, providing comprehensive support in feature development and enhancing their mastery of front-end best practices.

Qtap   January 2024 – June 2024
Front-end Developer   *Almaty, Kazakhstan*
- Optimized state management by leveraging **Jotai** and **TanStack Query**, improving data handling efficiency across the application.
- Implemented a fully responsive design using **Next.js** and **Tailwind CSS**, enhancing accessibility and user experience across all devices.
- Covered **60%** of the web application with unit tests, ensuring code reliability and maintainability.
- Generated **100%** of all email templates using **React Email** for consistent and dynamic communication.

EDUCATION

Suleyman Demirel University   Almaty, Kazakhstan
Bachelor of Computer Science   *August 2019 – June 2023*

PROJECTS

QazSmart | *Node.js, Express.js, MongoDB, React, Tailwind*
- Developed a web application to facilitate travel activities within Kazakhstan, utilizing **React** for the frontend to create interactive and responsive user interfaces.
- Built a robust backend with **Node.js** and **Express.js** to handle **RESTful API** requests, ensuring efficient data flow and application performance.
- Integrated **MongoDB** for data storage and retrieval, enabling fast access to large volumes of data about travel destinations and activities.
